Moving in the Right Direction.

By the following, it will be observed that the business men at Kansas City Mo., are getting sensitive in the right direction in regard to the outrages practiced on property and persons on the Missouri river, and particularly at their own city. If they will carry out their pledges in good faith, as we are assured they will, our people will cheerfully extend to them the right hand of fellowship. We copy their circular, as follows:

To the Public.

KANSAS CITY, Mo. March 25, '56. WHEREAS, The occurrence at our wharf, of the unlawful seizure and breaking open of a box or package, consigned to one of our shipping merchants, has caused an impression unfavorable and njurious to our good name; and

Whereas, We deem it but just to ourselves, and the public, that such imression should be contradicted, a meetng of the Merchants and Shippers of Kansas was called, which meeting submitted the following:

The box was opened by persons from Lexington and Independence, who came up on the boat unknown to our citizens, neeting be published in the several papers and the act performed before even all the taining anything else whatever-was consigned to Messrs. Simmons & Leadbeater, the latter only being in town, and being a comparative stranger here, did

not feel able to resist. We condemn the act as unlawful and sinister; and believe it to have been premeditated on the part of those inimical to our interests, and jealous of our prosperity; and by some largely interested in removing the trade from our city to Leavenworth and other towns. And we here declare, that property consigned to us shall be projected from undue or improper molestation, and that at the peril of our lives this declaration shall be maintained and made good. That, as shiptention to the same; and now he sends us pers and merchants, we guarantee this to all who may favor us with their patronage, and pledge ourselves that no town or city whatever, shall surpass us in care and protection to property consigned to our keeping, or in low prices, and every accommodation known to Western trade.

have to engage in quelling a civil war. We think it probable that the American people will long have to regret the enactment of the Nebraska Kansas bill, as it finally passed Congress. Had the clause which repealed the Missouri Compromise been omitted, the scenes which have disgraced Kansas, and which threaten to produce a civil war, would have been avoided. Kansas would have been gradually settled by those who designed to make the Territory their place of permanent abode; and all excitement upon the subject of slavery would have ceased. But the error has been committed, and the evils to which it has given As the President was one of the main instruments in inflicting the injury, it is his imperative duty to exert himself to repair it, as far as may be practicable, and without delay. He has been rather tardy of action, but we hope that he will now make up for former delay by promptness and energy. Let the people of Kansas know that they will be protected in their rights, and that parauders from neighboring States shall not assail them, and peace may yet be preserved. But, if civil war be once commenced, there may be a considerable amount of human blood shed before tranquility can be restored; and ill-feeling between the bordering counties of Missouri and Kansas will be perpetuated. We liope that the proclamation of the President may have its proper influence in quelling all parties, but a military force should be in readiness to enforce obedience if required. -Baltimore Chipper.

Land Claims.

OTICE is hereby given that I took a claim due north of Murkeson and Hackley's in the bend of the Kansas river, five miles north-west of Lawrence, in October last, since which time I commenced improvements, have erected a dwelling thereon, and continued an uninterrupted residence of the same down to the pres ent. The surveys indicate several fractions in the bend of the river. It is my purpose to pre-emptsuch ones as the receiver shall assign me, enough to make in the aggregate 160 acres.— This is, therefore, to forbid all persons trespassing or cutting timber on said fractions, or removing any away, as in due time I will prosecute all offenders to the extremity of the law.

Notice

THIS is to warn any persons against buying the house known as the Lawrence Building Association house and lot; for I, having bought nearly all of the original shares in the same, am the only person who can leadle all it and a ti-tle from any other person will be void, except for an undivided fractional part of the same.

Town Site of Winchester.

THE UNDERSIGNED have located a town by the name of Winchester, between Wakarusa and Rock Creck, and about four miles above the mouth of the latter, and eleven miles in a southwesterly direction from the city of Lawrence, on the claim lately vacated by Jonathan C. Casbier, and purpose incorporating it agreeably to law, for commercial purposes. They have already surveyed the town, and are now engaged in completing their map, which they will have lithographed as soon as possible. The town site is located on a high and rolling prairie; is sur-rounded by valuable springs of pure water, which is sufficiently abundant for supplying steam mills, and all other purposes necessary in an in-land town. It is on the direct route from Law-

rence to Council Grove, and will afford a natural stopping-place for travelers between the two points.

A steam say-mill will be located there soon. There is a large quantity of the choicest of timber in the immediate vicinity, and the claims are all taken up and occupied.

A school house is already on the site, and a school will be in operation as soon as a teacher

is procured.
Persons desiring lots will call on the subscribousiness men and others.

We invite those wanting such articles, te call a our Pork house, or at McCracken's O. K. Grecery on the levee, in the old Fulton House; wa will always be ready and happy to wait on customers. McCRACKEN, POWERS & CO. Leavenworth City, K. T., Jan. 19, 1856. 3m* THE subscriber would announce to the citi-zens of Kansas that he has located his Nursery south west of Lawrence, near the mouth of Washington Creek, where he holds himself in readiness to accommodate all that call on him. I have some Fifty-Five Thousand trees, from one to two years old, from the graft of the most approved varieties in the country. These trees are small, and those wishing to save twenty-five per cent. would do well to purchase this Spring and set them in a garden, and transplant to an orchard at their leisure. Ample provision has been made for all future supplies of trees. All trees labeled, and warranted to be the kind rec-ommended. JOHN ARMSTRONG. Feb. 9, 1856.-3m*
